

Company Handbook

****Version:** 1.0**

****Issued By:** Human Resources Department**

****Applicability:** All Full-Time and Contractual Employees**

****Tone:** Formal and Binding**

HR-POL-101: Leave Policy Framework

1.1 Leave Categories

****a) Earned Leave (EL)****

Earned Leave is accrued by employees based on continuous service and is intended for planned absences such as vacations, personal development, or extended rest periods.

- EL accrues monthly as per the employee's grade and tenure.
- EL requests must be submitted at least ****10 working days**** in advance.
- EL can be carried forward to the next calendar year, subject to statutory limits.

****b) Casual Leave (CL)****

Casual Leave is designed for short-term, unforeseen personal requirements.

- CL does not accrue and is credited at the beginning of each calendar year.
- CL requests may be submitted with shorter notice but must still follow approval workflows.
- CL cannot be carried forward or encashed.

1.2 Eligibility and Approval Logic

Leave approval is contingent upon:

- Sufficient individual leave balance, ****and****

- Managerial approval, ****and****
- Departmental performance conditions (see Conflict Rule below).

1.3 Conflict Rule: Departmental Performance Override

> ****Notwithstanding individual eligibility or leave balance****, any leave request (EL or CL) shall be ****automatically denied**** if the employee's ****departmental average Task Completion Score (TCS)**** for the preceding 30 days is ****below 65%****.

This rule applies uniformly across all leave types and cannot be overridden at the managerial level. The intent is to prioritize organizational delivery during periods of sustained underperformance.

HR-POL-202: Internal Transfer Policy

2.1 Standard Eligibility Criteria

An employee may apply for an internal transfer only if ****all**** of the following conditions are met:

- A minimum tenure of ****18 months**** in the current role at the time of application.
- A most recent ****Performance Rating of at least 4 out of 5****.
- No active performance improvement plan (PIP).

2.2 Transfer Review Process

Transfer requests are evaluated based on:

- Business necessity of the target role,
- Workforce planning constraints,
- Historical performance consistency.

Approval is not guaranteed even if eligibility criteria are met.

2.3 Exception Clause: Special Project Fast-Track

An exception to Section 2.1 may be considered if:

- The employee holds a recognized **“Special Project”** certification**,** **and**
- The transfer is explicitly **approved** by the CEO**.**

> This fast-track mechanism **does not** waive performance considerations entirely**;** it only relaxes tenure and rating thresholds. All other organizational constraints remain applicable.

HR-POL-303: Equipment Requests & Complaint Handling

3.1 New Hardware Request Process

Employees may request new or upgraded hardware by:

1. Submitting a request through the official IT Service Portal.
2. Providing a business justification linked to productivity or role requirements.
3. Obtaining approval from their Reporting Manager and the IT Department.

Priority is determined by role criticality, asset lifecycle status, and organizational budget.

3.2 Hardware Complaints and Usage Validation

All hardware-related complaints (e.g., system slowness, peripheral malfunction) are subject to activity validation.

> If an employee's **average Screen Time** has declined by **more than 30% in the last 7 days**, the complaint shall be **ignored and closed without action**.

This safeguard exists to prevent the allocation of resources where recent activity patterns indicate reduced operational engagement.

HR-POL-404: Meeting & Planning Logic

4.1 Standard Meeting Scheduling Rules

To preserve focus time and reduce cognitive overload:

- Routine meetings, reviews, and planning sessions **must not be scheduled on Fridays after 3:00 PM**.
- Calendars should reflect this restriction during auto-scheduling and manual booking.

4.2 Emergency Exception

Meetings may be scheduled during restricted hours **only** if classified as a:

Level 1 Emergency, defined as:

- A situation posing immediate operational, financial, or reputational risk to the organization.
- An event requiring real-time cross-functional coordination.

> Misclassification of meetings as emergencies may result in audit review and corrective action.

Interpretive Note for Automated Systems

In cases where multiple policies apply simultaneously (e.g., an employee requesting leave while also undergoing a transfer or raising a hardware complaint), **the most restrictive applicable rule shall take precedence** unless an explicit executive-level exception is documented.
