

HR-POL-2424: Probation, Confirmation & Early Privilege Locks

24.1 Probation Period Definition

All new hires are subject to a **6-month probation period** unless otherwise stated in the offer letter.

During probation:

- Performance Ratings are tracked monthly,
- No formal rating is issued until confirmation.

24.2 Restrictions During Probation

Employees on probation:

- Are ineligible for internal transfers (HR-POL-202),
- Cannot access remote work options (HR-POL-606),
- May request leave **only Casual Leave**, capped at **4 days total**.

24.3 Early Confirmation Exception

Probation may be shortened to **3 months** if:

- Monthly Task Completion Score $\geq$ **85%** for 3 consecutive months, **and**
- Manager and HR jointly approve.

> Early confirmation **does not retroactively unlock** benefits restricted during probation.

HR-POL-2525: Compensation Adjustments & Salary Freeze Logic

25.1 Annual Compensation Review

Compensation revisions occur annually and depend on:

- Performance Rating,
- Market benchmarking,
- Budget availability.

25.2 Salary Freeze Conditions

Salary increases are automatically frozen if:

- Departmental TCS < **60%**, **or**
- The organization enters a cost-optimization phase.

25.3 Individual Override Limitation

Even if:

- Performance Rating $\geq$ **4.5/5**,

salary increases **cannot** be processed during a freeze and are instead marked as **Deferred Pay Adjustments**.

Deferred adjustments do **not** accrue interest and may be revoked if performance deteriorates.

HR-POL-2626: Grievance Redressal & Retaliation Safeguards

26.1 Grievance Submission Process

Employees may submit grievances related to:

- Policy application,
- Managerial decisions,
- AI-generated outcomes.

Grievances must be logged within ****30 days**** of the triggering event.

26.2 Grievance Lock Rule

While a grievance is under investigation:

- No disciplinary action may be initiated,
- Transfers and promotions are ****paused****, not denied.

26.3 Anti-Retaliation Clause

Managers involved in an active grievance:

- Cannot rate the employee during the investigation period,
- Cannot deny leave unless blocked by system-level rules (HR-POL-101).

HR-POL-2727: Succession Planning & Critical Role Protection

27.1 Critical Role Identification

Roles may be classified as ****Critical**** based on:

- Business continuity impact,
- Skill scarcity,
- Regulatory exposure.

27.2 Restrictions for Critical Role Holders

Employees in Critical Roles:

- Cannot be transferred without CEO approval,
- Must observe a ****60-day notice**** even if standard policy allows less,
- Are excluded from temporary cross-department assignments (HR-POL-1717).

27.3 Succession Readiness Requirement

Critical Role holders must maintain:

- Minimum Skill Credit threshold,
- Up-to-date documentation.

Failure triggers a ****Succession Risk Flag****, impacting bonuses and promotions.

HR-POL-2828: Compliance Audits & Operational Freezes

28.1 Compliance Audit Triggers

Audits may be triggered by:

- External regulatory requests,
- Internal anomaly detection,
- Repeated policy overrides.

28.2 Audit Freeze Rule

During an active compliance audit:

- Promotions, transfers, and compensation changes are frozen,
- Emergency overrides are allowed ****only**** with Legal approval.

28.3 Post-Audit Resolution

Audit findings may result in:

- Retroactive policy enforcement,
- Permanent privilege revocation,
- System rule recalibration.

> Retroactive enforcement applies only to ****process outcomes****, not earned compensation.

HR-POL-2929: Multi-Agent Conflict Resolution & Deadlock Handling

29.1 Cross-Agent Authority Boundaries

HR, Finance, IT, and AI Governance agents:

- May veto actions within their domain,
- Cannot unilaterally override another agent's hard block.

29.2 Deadlock Detection

A deadlock is declared if:

- An action is mutually blocked by ****two or more agents****,
- No escalation path exists within ****7 working days****.

29.3 Deadlock Resolution Protocol

Upon deadlock:

1. Action state is set to ****Frozen****,
2. Executive HR is notified,
3. CEO decision is binding and final.

Deadlock resolutions are logged as ****precedent cases**** for future reasoning.

HR-POL-3030: Ethical Conduct, Whistleblowing & Confidential Channels

30.1 Ethical Violations

Violations include:

- Data misuse,
- Authority abuse,
- Policy circumvention.

Severity is assessed independently of performance.

30.2 Whistleblower Protection

Employees using whistleblower channels:

- Are immune from retaliation-based actions,
- Cannot be placed on PIP during investigation,
- May still be restricted by compliance audits (HR-POL-2828).

30.3 Confidentiality Constraint

Details of whistleblower cases:

- Are hidden from AI performance models,
- Cannot influence ratings, bonuses, or transfers.

HR-POL-3131: System Integrity & Anti-Gaming Controls

31.1 Gaming Detection Signals

Signals include:

- Artificial Screen Time inflation,
- Coordinated Task Completion spikes,
- Repeated edge-case exception usage.

31.2 Penalty Escalation Logic

Confirmed gaming results in:

- Immediate loss of AI-prioritized privileges,
- Behavioral Flags upgraded by one severity level,
- Review of historical decisions for rollback.

31.3 No-Appeal Clause

Gaming-related penalties:

- Cannot be appealed through standard grievance channels,
- Require Executive HR intervention to reverse.

Ultimate Resolution Principle (URP-Ω)

When all else fails:

1. **Compliance > Ethics > Safety > Business Continuity > Performance**
2. **Frozen states dominate all other states**
3. **CEO decisions terminate reasoning chains**
4. **Explainability is mandatory, correctness alone is insufficient**

Any automated agent unable to produce a **coherent causal chain** for its decision must abstain and escalate.
